Aircraft Highlights

Looking for a dual-purpose helicopter equipped for a variety of missions? This turnkey 407GX combines executive comfort with utility performance. It features great component times, is currently F.A.R. part 135-compliant, and all major inspections have been recently completed. The airframe is well-maintained, fully loaded and flight-ready. The Garmin G1000 panel and OEM two-axis autopilot makes this 407GX excel in the single-pilot environment.

In addition to the G1000 suite, this superior helicopter gives owner/operators greater peace of mind with up-to-date in-flight weather and an upgraded Traffic Avoidance System. Along with these enhancements, the current owner has spared no expense in this machine's outfitting: with plush leather seating, air-conditioning, beautiful interior trims and the addition of USB ports, this corporate interior space was designed and built for the executive traveler. This helicopter is also equipped with an external cargo hook, allowing your operation to be executive transport today and utility external load tomorrow.

This immaculate machine is ready for immediate sale. Don't let this 407GX fly away. Call and schedule a showing today!
