Aircraft Highlights

This beautiful Robinson R66 was manufactured in 2013, and currently has nearly 200 hours remaining or four years, and has plenty of cycles. All maintenance has been performed following Robinson's Directives for Continued Airworthiness. This beautiful machine presents exceptionally well. Both interior and exterior are 9/10! This aircraft is equipped with an external load cargo hook, making it turn-key for utility operators. Not an operator? No problem, this helicopter has plenty of years remaining for the private flyer that is looking to fly sub 100 hours/year! Don't wait, don't delay! This beautiful helicopter will not last long! Schedule a showing today!
